EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science

CGPA: 8.61

Aug. 2025 – July 2029

St. Xavier's School

Senior Secondary in Mathematics

XII : 86.2%

May 2025

PROJECTS

Full Stack Finance and Split Management System

owemate.vercel.app

Express, React, Node, Socket.io, PostgreSQL, JWT and bCRYPT

Github: [pfldivyanshsingh/owemate](https://github.com/pfldivyanshsingh/owemate)

- Designed and developed a full-stack group expense management platform using React, Node.js, and Express, focusing on scalable API architecture and clean backend design suitable for real-world applications.
- Implemented secure authentication and authorization using JWT and bcrypt, along with email verification and password reset workflows using Resend, ensuring production-level user security practices.
- Integrated real-time synchronization using Socket.IO to instantly update group expenses, settlements, and notifications across multiple users, improving system responsiveness and user experience.
- Utilized Supabase (PostgreSQL) for structured data management and optimized queries, while deploying the application on Vercel and Render, gaining hands-on experience with environment configuration, CORS handling, and production debugging.
- Engineered complex expense-splitting logic (equal, unequal, and selective splits) with accurate balance tracking, enabling efficient handling of real-time financial transactions and edge cases.

Portfolio Website

pfldivyansh.in

HTML, CSS, JavaScript, BOOTSTRAP

- Built a fully responsive personal portfolio website using HTML, CSS, and Bootstrap, ensuring cross-device compatibility and optimized user experience across mobile, tablet, and desktop platforms.
- Designed and structured reusable UI components with Bootstrap, focusing on clean layout, accessibility, and performance optimization to deliver a fast-loading and professional interface.
- Added interactivity using JavaScript for smooth navigation and better UX.
- Followed structured code practices for maintainability and scalability.
- Presented projects and skills clearly, aligned with SDE and full-stack roles.

EXPERIENCE

GirlScript Summer Of Code | JavaScript, React, PostgreSQL

2026

- Selected participant in GSSoC 2026, contributing to open-source projects and collaborating with developers in a real-world development environment.
- Strengthened problem-solving, version control, and code collaboration skills through active contributions and project participation.

ACHIEVEMENTS

DevOps | Infosys SpringBoard

2026

- Completed DevOps Certification from Infosys Springboard, learned CI/CD, Git, and automation.
- Gained practical knowledge of Docker, cloud, and deployment workflows.

C Programming | GeeksforGeeks

2025

- Completed C Certification, gained strong fundamentals in programming, data types, and problem-solving.
- Learned advanced C concepts like pointers, memory management, and structures.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, SQL, PostgreSQL, JavaScript, HTML/CSS

Full Stack Engineering: MongoDB, Express, React, Node.js, Bootstrap, DBMS

Developer Tools: Git, Render Deployment, VS Code, Vercel Deployment, Postman API, DNS

Additional Skills: Problem Solving, Communication Skills
